

## Nowell, Keith, Env. Health

---

**Subject:** RO2933- 1409-1417 12th Street, Oakland  
**Entry Type:** Phone call  
**Company:** State Water Resources Control Board

**Start:** Mon 3/11/2013 2:43 PM  
**End:** Mon 3/11/2013 2:48 PM  
**Duration:** 5 minutes

Received call from Judy Reid of the State Board Orphan Sites re RO2933- 1409-1417 12th Street, Oakland- the Thompson Property. Jennifer Nitta was also on the line with Ms. Reid. Ms. Reid was inquiring about the site status. Though she did not have a workplan, the consultant for the site, Mr. Joseph Cotton, had outlined a plan of action for her. Ms. Reid wanted to know what I thought of the work scope as any work for the site that would be funded through the Orphan account would need to be approved by the end of this month. I recalled Mr. Cotton was to provide me with two reports- one for groundwater monitoring and one for verification soil sampling with soil-gas data. I said I would withhold comment without these reports to review. I told Ms. Reid that I would follow up with Mr. Cotton after we finished this call. Ms. Reid said she would forward me an email she had inadvertently sent to the Regional Board requesting site information and discussing the proposed scope of work. I provided her with my email address and followed up with an email to her containing my contact information.
