I called Mr. Joseph Cotton, consultant for the Thompson Property, RO2933. My call was a follow up call after speaking with Ms. Judy Reid of the State Board Orphan Sites fund. Mr. Cotton said he had been out of town for some time, but that he expected to return to the area soon. I inquired about the status of the reports he was to provide me. Mr. Cotton said he would be providing two reports- one for groundwater monitoring and one with soil-gas data. He thought he would have the reports to me by the end of next week (March 22). I asked him if he was aware of the impending deadline for getting Orphan fund reimbursement. Mr. Cotton said he was aware of it and told me the approval deadline was March 30<sup>th</sup>.
