Subject: Notice to Comply for Fuel Leak Case No. RO0002935 and GeoTracker Global ID T0619748201, Automasters, 6200 Shattuck Ave., Oakland, CA 94609

Dear Mr. Logan:

Alameda County Environmental Health (ACEH) staff has reviewed the fuel leak case file for the above-referenced site regarding two underground storage tanks (USTs) which were removed in 1986. Alameda County Environmental Health's (ACEH) May 4, 2007 letter requested a conduit study, a work plan for contaminant source characterization, and any reports associated with tank removal or site activities. These reports were requested by June 8, 2007 and a 6-month extension was requested by Pangea until December 8, 2007. To date, the requested reports have not been submitted.

The only samples reported from the site were collected on June 3 and 5, 2006 and reported in Pangea's August 23, 2006 *Soil and Groundwater Investigation Report*. Up to 3,000 milligrams per kilogram (mg/kg) total petroleum hydrocarbons as gasoline (TPHg), 850 mg/kg total petroleum hydrocarbons as diesel (TPHd), and 10 mg/kg naphthalene in soil. Groundwater was collected from only one of the soil borings and up to 1,700 micrograms per liter ( $\mu\text{g/L}$ ) TPHg, 1,000  $\mu\text{g/L}$  TPHd, 1,200  $\mu\text{g/L}$  total petroleum hydrocarbons as motor oil (TPHmo), and 14  $\mu\text{g/L}$  benzene were detected.

Further work is required to progress the case towards closure. We request that you complete the work as noted in the technical comments of the May 4, 2007 directive letter. Please submit the requested reports by the due date listed below.

**TECHNICAL REPORT REQUEST**

Please submit technical reports to ACEH (Attention: Barbara Jakub), according to the following schedule:

- **May 30, 2012** – Work Plan and Conduit Study

## Responsible Party(ies) Legal Requirements/Obligations

### REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

### ELECTRONIC SUBMITTAL OF REPORTS

ACEH's Environmental Cleanup Oversight Programs (LOP and SLIC) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program FTP site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and other data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to Spills, Leaks, Investigations, and Cleanup (SLIC) sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website for more information on these requirements ([http://www.waterboards.ca.gov/water\\_issues/programs/ust/electronic\\_submittal/](http://www.waterboards.ca.gov/water_issues/programs/ust/electronic_submittal/)).

### PERJURY STATEMENT

All work plans, technical reports, or technical documents submitted to ACEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached document or report is true and correct to the best of my knowledge." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

### PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6735, 6835, and 7835.1) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately registered or certified professional. For your submittal to be considered a valid technical report, you are to present site specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this fuel leak case meet this requirement.

### UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, later reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

### AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
