**SUBJECT: LETTER REPORT FOR INVESTIGATIVE DERIVED WASTE (IDW) DISPOSAL  
DECEMBER 2015 REMEDIAL INVESTIGATION PROGRAM  
Automasters  
6200 Shattuck Avenue, Oakland, Ca**

Dear Ms. Detterman:

West & Associates Environmental Engineers, Inc. is pleased to submit this letter report summarizing the profiling, transportation and disposal of investigation derived wastes (IDW) generated during the remedial investigation program at the subject Site. Soil cuttings from the drilling operation were shoveled into 17H steel drums and staged at the Site for proper disposition. Purge water extracted during development and sampling of the three monitoring wells was also placed into drums and staged at the site. The drums were labeled with green and white "Non-hazardous Waste" labels the same day.

The soil was profiled into the Recology Hay Road landfill in Dixon by submitting the McCampbell lab report for soil samples collected during well installation along with a waste disposal application and site map. The analytical results were well within the permit limits for TPH-g, BTEX compounds and MtBE. Recology approved the drummed soil for disposal and assigned Job #6685 to this project.

Extracted groundwater was profiled into the InStrat water treatment facility by submitting the McCampbell lab report for groundwater samples and a profile form. InStrat approved the drummed water for acceptance at their Rio Vista facility.

On January 26, 2015 California Express Oil transported the 10 drums of soil to Recology's Hay Road landfill for disposal and the 4 drums of water to InStrat in Rio Vista for treatment. The soil was disposed in an area of the landfill with a lined cell that is permitted to receive soil containing non-hazardous concentrations of TPH-gasoline and TPH-diesel compounds. Copies of the non-hazardous waste manifests and facility receipts for both soil and groundwater are attached.

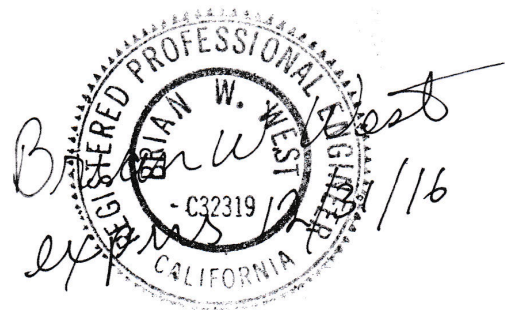

Please call me if you have any questions regarding this report or other aspects of the remediation project at 6200 Shattuck Avenue in Oakland. I can also be reached by email at [bruce@astound.net](mailto:bruce@astound.net).

Sincerely,

Bruce Jacobsen  
Project Manager
