FYI. I guess they don't require ongoing monitoring and we have another 60 days to submit the workplan.

Hello Jacob,

Alameda County Environmental Health concurs with the requested 60 day extension from the October 28, 2015 schedule for submittal of a vapor intrusion investigation work plan. As we also discussed by telephone today, recent groundwater monitoring results have been consistent. Therefore, we would have no objection to suspending groundwater monitoring pending the completion of a vapor intrusion investigation and detailed review of the case.

Regards,

Jerry Wickham

Subject: Eastmont Town Center

Hi Jerry,

I'm following up on a voicemail I left on your office line. We closed the acquisition of the Eastmont Town Center in Oakland last week, and I represent the new ownership. If you have a some free time this afternoon or tomorrow for a brief call I would like to introduce myself and get an update from you on the status of the case file. Also please include me on all future correspondence. We'll also most likely retain Will Mast with PES so please include him as well.

I believe there's an October 28th deadline for a workplan submission—I politely ask that you consider giving us a 60 days extension because of the sale. I don't think the prior owners made any headway with it, so we'd be starting from scratch and I don't know if we'll be able to get it done by the deadline. Your consideration is appreciated.

We look forward to working with you and pushing this project towards site closure.

Best,

Jacob
