**Subject:** RE: T-Mobile sampling

Hi Beverly,

I am assuming that the T-Mobile work is outside the scope of work to be proposed in your Work Plan. Please make sure that Alameda County Environmental Health receives a report of the results as well. Permits for the soil borings are required from the Zone 7 Water Agency. The drilling permit application is online at [http://www.zone7water.com/images/pdf\\_docs/permits/drilling\\_permit\\_8-07.pdf](http://www.zone7water.com/images/pdf_docs/permits/drilling_permit_8-07.pdf) or you can contact Wyman Hong at [whong@zone7water.com](mailto:whong@zone7water.com) or 925-245-9306.

**Subject:** RE: T-Mobile sampling

Hi Jerry,

We are in process of completing the workplan for your review on:

Site Address:

Livermore Amador Transit Authority  
1362 Rutan Drive  
Livermore, CA

Case Numbers:

SLIC Case RO0002934  
Geotracker Global ID SLT 19742527

In the meantime, T-Mobile needs to conduct sampling per the request below. Please advise what permits are needed or next step needed in order to do the sampling.

Thank you.

Bev Adamo

**Subject:** T-Mobile sampling

Beverly,

Thanks for getting back to me so quickly. I am trying to coordinate two soil and groundwater borings at your facility prior to the scheduled T-Mobile cellular facility construction date. They have asked EarthTouch to do this sampling as soon as possible and I have tried to find out from the Alameda County Environmental Health Department (ACEHD) about permit requirements and to let them know that we would be sampling on an open SLIC facility. It was suggested that you would be able to facilitate alerting ACEHD that we are planning to do this work and finding out about the permits needed, if any. Please let me know if you can help – I have the drillers tentatively scheduled for Nov. 15<sup>th</sup> and would like to this as soon as possible.

Please call me cell if you have any questions.  
Eve
