Sami,

Thanks for the update on the site. The extension request appears appropriate. Please use this email to document ACEH concurrence; however, to minimize costs, I have kept the two reports as originally requested as a single report submittal with a March 16 date. If you think it warranted, please keep me advised as to the vapor results prior to report submittal.

Best,

Hi Mark:

I am writing this email to request further extension of time to submit the soil gas sampling and interim remedial action reports for the subject site. Due to the rainy weather in December 2014 and encountering wet soil, we were not able to conduct the soil gas survey until first week of January 2015. We expect the lab results for the soil gas sampling by no later than 21st of this month. We expect to complete the interim remedial action (shallow soil excavation and disposal for lead impacted areas) by mid February or earlier.

We request to extend the time for the report submittal as follows:

Soil gas sampling report by February 27, 2015.

Interim Remedial Action Report by March 17, 2015.

Your help and cooperation are greatly appreciated.

Thanks,

Sami Malaeb, P.E., QSP/QSD

Hi Sami,

I have been wondering about the status of this site; thanks for confirming my suspicion. Please use this email to document ACEH concurrence with the requested submittal extension. I have updated Geotracker with a January 23, 2015 submittal date.

Hi Mark:

I am writing this email to let you know that we have received the approval of the Orphan Fund for the soil vapor survey and interim remedial action at 2145 35th Avenue in Oakland this last week. In your email below you requested reports on the soil vapor survey and interim remedial action by November 21st, 2014 (once extended date). Since we have just received the approval from the Fund, we are requesting an extension to submit these reports by end of January 2015. Thank you for your understanding.

Your help and cooperation are greatly appreciated.

Thanks,

Sami,

I have changed the delivery date on Geotracker to November 21st. The delay appears warranted due to the funding situation.

Thanks for the update.

Hi Mark:

I am writing this email to let you know that we have not yet received the approval of the Orphan Fund for the soil vapor survey and interim remedial action at 2145 35th Avenue in Oakland. In your attached letter, you requested reports on the soil vapor survey and interim remedial action by August 22, 2014. Since we have not received the approval from the Fund yet, we are requesting 90-day extension to submit these reports. That is to submit the reports by November 21, 2014. We expect to receive approval from the Fund within the next two to three weeks.

Your help and cooperation are greatly appreciated.

Thanks,
