Returned voice mail to Rene who is concerned about her and her husband's investment into the LLC that purchased the site. There is a concern that property taxes have not been paid for the year and it could be sold from under them. We discussed the site, the general status, and recent progress. We are currently waiting for State Orphan Fund to approve next scope of work and the consultant has requested an extension until June 16th for the delivery of a report based on the results. If the data is good, closure is a good potential, but will take a period of time required by the state; 60 days for review, namely 60 days for public comment, 30 – 60 days for well destruction, and 30 days for the generation of the closure letter and documents. With all the intervening time added in, closure would be near the end of the year. If the data is not as we suspect or hope, additional work may be required. They are headed to the County building to see about the taxes.
