Subject: Hansom Aggregats Radum Plant: request for extension

Jerry,

Thank you for your February 26, 2015 response to our Closure Report for the above referenced site. At this time we would like to request an extension for the submittal date of the Response to Comments and the Groundwater Assessment Work Plan.

Our client, USL Pleasanton, is still reviewing this case. Several of the principals at USL Pleasanton have been away from the office for an extended period, and have been unable to give this issue the attention it deserves.

The requested submittal date is April 30, 2015: we propose to submit the Response to Comments and the Groundwater Assessment Work Plan on June 30, 2015.

Thank you for your attention to this site; please let us know whether the proposed submittal date is acceptable to you.
