Hi Jerry,

Hope you had a great Thanksgiving Holiday!

I submitted a well installation report to ACEH on 10/27/11 for the site with an ACEH case #RO2959. As you know this site is funded by the State Orphan site cleanup grant. In the well installation report I recommended that the seven newly installed wells be monitored quarterly in 2012 to assess groundwater quality and seasonal variation of contamination concentration. However, the State will not release grant for the 4 quarterly monitoring events for 2012 without your approval letter. I really appreciate if you could review the well installation report and let me know if you agree with the one-year quarterly monitoring recommendation.

Thank you.

Hello,

A report for well installation and additional soil sampling for RO#2959 has been uploaded to the County's ftp site.

Thanks.
