Steve,

I have not even had a chance to begin reviewing this document. If you believe the site is near closure can you please fill out the attached closure form for me and send back as a Word document? Also, if you could update your cross section to include soil concentrations and add the conduits, that would be helpful. Have you performed a preferential pathway study for the area including utility survey and well survey? Please ensure we have those on a map and include the well survey results on the closure form. There is example text in the form. Please do not delete any of the form but you can delete the example text.

Thank you,
Barb Jakub

Hi Barbara-

These folks are getting curious (anxious) about the timeline for closure from the County. Can you give us a quick update? They have an interested buyer.

Thanks
