Subject: Fuel Leak Case No. RO0002965 and Geotracker Global ID T0619704141, R&H Auto Repair, 5315 San Pablo Avenue, Oakland, CA 94608

Dear Mr. Jasbinder and Mrs. Gulbinder Grewel:

Alameda County Environmental Health (ACEH) staff has reviewed the February 19, 2008 *Underground Storage Tank Removal Final Report* prepared by AEI Consultants. The report discusses the removal of four underground storage tanks (USTs) including one-waste-oil, two gasoline and one diesel UST and the subsequent sampling and excavation activities. The report indicated that soil was over-excavated in all areas to below 100 milligrams per kilogram (mg/Kg) total petroleum hydrocarbons as gasoline (TPH-g) except on the south side of the gasoline tank pit near the sidewalk. Residual contamination of 160 mg/Kg TPHg, 0.42 mg/kg toluene, and 0.44 xylenes was left in place at the site. Groundwater samples were not collected during the tank removal activities.

Please investigate the extent of soil contamination and determine if groundwater contamination is present beneath your site. This type of investigation can involve drilling one or more soil borings and collecting soil and groundwater samples for chemical analysis. Groundwater monitoring wells may not be needed at this time to determine if groundwater contamination is present. However, an expedited site assessment which includes collecting groundwater samples is required.

Please submit a work plan detailing your proposal to define the extent of soil and groundwater contamination by **September 27, 2008**. This report is being requested pursuant to the Regional Water Quality Control Board's authority under Section 13267 of the California Water Code.

#### **REQUEST FOR INFORMATION**

ACEH's case file for the subject site contains the only the electronic reports as listed on our website (<http://www.acgov.org/aceh/lop/ust.htm>). You are requested to submit copies of all other reports related to environmental investigations, if any, for this property (including Phase 1 reports) by **September 26, 2008**.

### **TECHNICAL REPORT REQUEST**

Please submit technical reports to Alameda County Environmental Health (Attention: Barbara Jakub), according to the following schedule:

- **September 26, 2008** – Work Plan

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

### **ELECTRONIC SUBMITTAL OF REPORTS**

ACEH's Environmental Cleanup Oversight Programs (LOP and SLIC) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program FTP site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) Geotracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and other data to the Geotracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to Spills, Leaks, Investigations, and Cleanup (SLIC) sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in Geotracker (in PDF format). Please visit the SWRCB website for more information on these requirements ([http://www.swrcb.ca.gov/ust/electronic\\_submittal/report\\_rqmts.shtml](http://www.swrcb.ca.gov/ust/electronic_submittal/report_rqmts.shtml)).

### **PERJURY STATEMENT**

All work plans, technical reports, or technical documents submitted to ACEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached document or report is true and correct to the best of my knowledge." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

### **PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS**

The California Business and Professions Code (Sections 6735, 6835, and 7835.1) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately registered or certified professional. For your submittal to be considered a valid technical report, you are to present site specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature,

and statement of professional certification. Please ensure all that all technical reports submitted for this fuel leak case meet this requirement.

### **UNDERGROUND STORAGE TANK CLEANUP FUND**

Please note that delays in investigation, later reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

### **AGENCY OVERSIGHT**

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.

If you have any questions, please call me at (510) 639-1287 or send me an electronic mail message at [barbara.jakub@acgov.org](mailto:barbara.jakub@acgov.org).

Sincerely,

Barbara J. Jakub, P.G.
