Dear Danielle,

I just received word from our field technician that the hazardous material cleanup is complete at the referenced property. It reportedly went well. All waste (diesel, oil, rinse water, and rags) is containerized and labeled pending lawful disposal anticipated for tomorrow or early the following week. I will prepare a documentation letter with photographs, field notes, and manifests once the drums are removed from the site.

Thank you for your assistance in this matter.

Scott

Hi - The attached plan is acceptable. I will visit the site on Thursday, but I have other commitments and will not be on-site for the entire operation. There is not need to delay the start of the project until I arrive. Danielle

Dear Ms. Stefani,

Please see attached document. Nica would like to perform the work described in the document on Thursday, October 9th, 2008. Please do not hesitate to contact me with questions. One hard copy of the letter is being sent via U.S. Mail to your office. Please do not hesitate to contact me with any questions. Thank you, Scott
