Mr. Nowell:

Could you please let me know what the status is of this site and the path to closure? To my knowledge and according to the letter that was attached to the email below, the ACHCSA indicated that you were prepared to proceed with the case closure and begin the public participation process. That was more than two months ago and as far as I can tell, nothing has been done to move this case to closure. Please get back to me at your earliest convenience with the site status and the path forward.
