Jessica,

It was good to meet with you and Nick again today. By all appearances it appears to have a productive meeting, and it appears that we have identified a path to closure for the site.

As we concluded, ACEH will await a response from you and Adanta to the June 18, 2013 ACEH letter in a focused SCM and response letter / report. From the information we discussed today it appears that data may exist, or may soon be collected, that can address most if not all of the technical comments in the letter.

To act as a place holder, I have extended the due date for the submittal to October 4, 2013. This will keep you in compliance with ACEH directives.

Should you have questions, do let me know.

Mark,

I wanted to get another meeting date to review Ambassador on our calendars. I know you had said that next week is crazy for you.

Are you and Dilan available on Friday, August 23? On our end, we're all available that afternoon.

Thanks,  
Jessica
