Duration:	1.5 hours

Meet with Jessica Sheldon (Resources for Community Development), Jodi Smith (Paul Hastings, Board Member RCD), and Nick Patz (Adanta). Dilan Roe and Mark Detterman from ACEH

Called meeting to discuss site due to October / November occupation time frame, and difficult and fitful progress at site, with an attempt to wrap loose strings together and move site forward in this limited timeframe. Discuss a number of LTCP missing elements. We had requested an SCM in the previous letter in order to help focus site, but was not submitted and one of data gaps was essentially not addressed. Under LTCP there are other items that have not been addressed (lack data) and these need to be addressed by the collection of data or the presentation of a rational why existing data demonstrates the data gap is satisfied. We'll be accepting of either, but we need to be convinced the data works at the site. Ask for a Gant Chart to help all understand timeframe required under best scenario, and this helps everyone understand how the site will proceed time-wise. We'll get a letter out by tomorrow and will send a DGIT and an example focused SCM to help them out with both their thinking and focusing the SCM down to what is needed.
