Subject: RE: RO2974 Request for Reduced Sampling

As per our phone conversation, please schedule sampling in May and submit the report by June 29, 2012.

Regards,
Barb Jakub

Last year we sampled the first month of each quarter, but I just checked the QM sampling schedule and the site is not scheduled for this month.

Shall we just say 45 days after sampling?

What month do you normally sample this site? We prefer 45 days after sampling so all reports come in on the same day.

Barbara:

Thank you.

We will schedule quarterly monitoring activities beginning this quarter through the first quarter of the 2013, with reports due by the 15th of the month following the end of the quarter.

Dear Ms. Sedlachek and Ms. Westrup,

Your request for semi-annual monitoring is temporarily declined. Since a pilot test was recently performed, ACEH requires quarterly verification monitoring for at least one-year.

Barb:

Hope this email finds you well. I am now managing Former Exxon 79374, Fuel Case No. RO0002974, located at 990 San Pablo Avenue, Albany CA. I was reviewing the Agency Correspondences in my files and on Geotracker, and I wanted to confirm that the reduced sampling schedule (Second and Fourth Quarters) proposed in our report, *Groundwater Monitoring Report Fourth Quarter 2011*, dated November 18, 2011, was acceptable to the County.
