Mark:

We have obtained the Encroachment Permit from the City of Albany. You should have received a letter dated February 10, 2014 notifying the station manager and property owners that work is scheduled to begin next Tuesday, February 25, 2014. Currently we are scheduled to install the SVS wells on that date, we will then return on March 5th and 6th to perform SVS vapor sampling.

Thank you,

Rebekah A. Westrup

Rebekah,

Let's see how long it takes to get the permit back from the City. I'll extend it 2 months at that point (rather than a two month extension starting today which puts it in March).

Mark:

As witnessed by our emails yesterday, we are still in negotiations with the City of Albany for the Encroachment Permit to perform the soil borings at the subject site. They have requested that we adjust our TCP so that has been forwarded to our Engineer. I would like to request an extension of April 30, 2014 for Submission of the results report.
