Hello,

We presented your letter and request to the owner and the owner has replied as follows:

“While I fully appreciate the critical nature of environmental studies like this one, I decline to participate in the study by allowing your crew onto my property out of respect for the peace and privacy of my tenants. My renovation works there have already inconvenienced them with a steady flow of workers on site, which has itself been a challenge to manage. Also, I suspect that there are plenty of other suitable sites to do environmental testing in the immediate vicinity.

Please do not disturb my workers or tenants with your study by trespassing into my property. “

As such, we do not have authority to provide you access to the owner’s property.

Thanks,
Menna
