Dear Ms. Jakub,

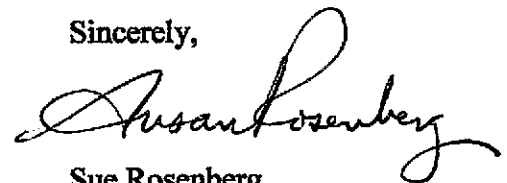

In reference to the certified letter dated April 20, 2009, I am writing to confirm that the Willbett Company, Incorporated, is the responsible party as defined by ACEH under 23 C.C.R Sec 2720.

In March 2008, the Willbett Company, under the guidance of Environmental Services Company, Gribi and Associates took prompt action to remove one 1,300-gallon UST and one 425-gallon UST, and one 650 gal AST, per a request by the City of Oakland to do so. All three tanks contained heating oil used at the burner manufacturing facility onsite.

In accordance with Gribi and Associates recommendation, approximately 57 tons of over-excavated soil from both UST locations were removed, and replaced with clean soil.

If there is any further information your office requires to close this site, please let me know, I am happy to offer any help I can. Also, I really appreciate your follow up phone call to clarify the requirements regarding the Notice of Responsibility that we received last week.

Sincerely,

Sue Rosenberg  
Willbett Company, Inc.
