Duration: 0 hours

Phone call with William Spencer regarding NOR for 1424 Harrison. Mr. Spencer hired a firm to prepare environmental reports for his property in 2002. Mr. Spencer contends that fuel contamination on his property is from an adjacent site with an open fuel leak case. I referred to the information in the NOR regarding the existence of an unauthorized release from his site. In response to Mr. Spencer's question, I indicated that my next step would be to send a directive letter requesting investigation of the unauthorized release. Mr. Spencer indicated that he would send a letter, "putting us on notice."
