Subject: 316 38th Street update

Dear Jerry,

They were able to advance all 3 outdoor soil borings yesterday, though we had to shift the boring locations slightly (to advance them where no obstructions were encountered); they tried multiple locations for each boring to get those in.

Today, however, as they were advancing the indoor soil borings their ram-set had a technical issue they were not able to fix in the field; as such we had to postpone the advancement of the remaining soil borings till Monday.

Please do not hesitate to call me at (925)734-6400, if you have any questions or concerns.

Sincerely,

Elena K. Manzo
