Elena,

Based on your request, the schedule for work plan submittal for case RO2996 is extended to March 24, 2011.

Regards,
Jerry Wickham

Dear Jerry,

As you know we are working on a workplan for above site (due to you on February 24th). We visited the site and it appears that the easiest way (due to access limitations) to delineate the up gradient extent of contamination would be from the Glovatorium property (at the property boundary).

The site lawyers are trying to arrange for the site access, just to be sure that if we propose something it will be executable in the future. At this time, it looks like it might take some time to secure such agreement; therefore, we would like to request a 1-month extension for the workplan submittal.

Thank you very much for your time.
