Nick,

I am forwarding your message to Donna Drogos. Donna is the program manager for the Toxics Programs in our agency and makes the decisions regarding accepting new cases for our SLIC program.

Regards,
Jerry Wickham
Senior Hazardous Materials Specialist
Alameda County Environmental Health

Hi Jerry,

I have been having trouble getting through the receptionist, so I thought I might go straight to you with this question. I have a client with a property that has a dry cleaner in Castro Valley. There was a Phase I and then a Phase II by AEI. Very light contamination, but AEI recommended getting regulatory involvement. So now WaMU will not release a large some of contingency money until the site is opened and closed. Could you please tell me how I might accomplish this. I have the Phase I and Phase II report on my computer – but just do not really know where to go from here.

Thank You
Best Regards

Nick Patz
