Re: Request for Regulatory Oversight
Former Dry Cleaners
2960 Castro Valley Boulevard
Castro Valley, California 94546

Dear Ms. Drogos:

I would like to request that the Alameda County Environmental Health Department Local Oversight Program review reports issued and provide regulatory oversight for one unit of a property I own at 2960 Castro Valley Boulevard, Castro Valley, California. The property is a strip mall, and the westernmost unit used to have a dry cleaner as a tenant. The dry cleaner is where we would like your help.

A Phase II Environmental Site Assessment was conducted in 2007 by AEI, as part of my due diligence for buying the property. Six soil borings were drilled and PCE was found in soil and groundwater at, what appear to be, small concentrations.

Enclosed is a check for \$6,000 to initiate your assistance on this matter. Available reports are being uploaded to the LOP stp website.

Sincerely,

Gabriel Chiu
