Danielle,

My preference would be to have the data in a normal groundwater monitoring report. The data can then be readily incorporated into closure documents.

Good afternoon Mr. Wickham,

Stantec is in receipt of your August 11, 2014 letter for the 7-Eleven Store Number 32266, located at 1339 North Vasco Road in Livermore, California. Per your letter we will cease groundwater monitoring and sampling events. We had performed the third quarter 2014 monitoring and sampling event on July 28, 2014, prior to your letter. Would you prefer that the quarterly monitoring and sampling report be prepared as normal, or just a copy of the lab and field data for your review?

Thank you,

**Danielle Manning**
