Adrienne LaPierre (alapierre@irisenv.com)
Risk Assessor at Iris Environmental in Oakland

Risk assessments and toxicological interpretations, conclusions, and recommendations should be conducted by a professional with one of the following credentials:

- Certification as a Diplomat of the American Board of Toxicology, or
- Possession of a Master's Degree in Toxicology, Biochemistry, or Pharmacology, or a closely related specialty from an accredited college or university and three years of experience following the receipt of the Master's Degree in designing and managing toxicological studies, interpreting results, and conducting hazard and safety evaluations, or
- Possession of a Doctoral Degree in Toxicology, Biochemistry, or Pharmacology, or a closely related specialty from an accredited college or university and one years of experience following the receipt of the Master's Degree in designing and managing toxicological studies, interpreting results, and conducting hazard and safety evaluations.
