

SITE INSPECTION NOTES

CASE NO.: RO3001

SITE NAME: Terradev Jefferson LLC

ADDRESS: 645 4th Avenue, Oakland

DATE: March 14, 2012

PARTICIPANTS:

Jerry Wickham, ACEH

Brian Gwinn, Blue Rock Environmental

Sara May, Terradev Jefferson LLC

We met at the site to review possible locations for sub-slab soil vapor sampling:

- We discussed possible sub-slab soil vapor sampling locations in the portion of the building nearest the abandoned UST. The nearest location is a carpeted office area that was occupied by two office workers.
- The next nearest area was a hallway that lead to small offices and conference rooms.
- ACEH needs to receive a Work Plan with a schedule for conducting the soil vapor intrusion evaluation and the additional DPE event.
