Subject: Version 2: Roundtable review of environmental remediation options for 540 Cleveland Ave in Albany - Western Forge

Everyone-

It looks like August vacation-time is getting in the way of putting a meeting together. Also I'm missing the email addresses of some key participants. So we'll have to cancel the 16th (proposed date) and I'll get another date out to everyone for the end of the month or beginning of September.

Thanks,

Rich Cunningham

p.s. Barney, would you please forward this to Mark D?

In a recent meeting with Barney Chan from AC Health (on another matter), I suggested that it might be a good idea for all the interested parties to get together at one time to discuss the various options for bringing the Western Forge property to a level of remediation that was satisfactory to everyone. Barney thought so also and so this email conveys an invitation to everyone who's been involved so far EXCEPT the environmental consultants contracted by Western Forge, for whom I do not have contact info and they will have to be invited separately by Western Forge. (The cc's of this email are FYI only to the recipients, with meeting attendance not expected.)

I would like to suggest anytime next Weds, August 11th as a possible date for a meeting.
If not then, how does the morning of the 16th work?

The meeting place would be at 548 Cleveland, which is the Albany Public Works Operations Yard.

Thanking you in advance,

Rich Cunningham
