Hi Kris, Lise,
Sorry I didn't get back to you yesterday.

Regardless, please use this email to document ACEH concurrence with the requested extension (modified to June 27 per Kris's voice mail from this morning). This will allow the incorporation of revised analytical data from the laboratory relative to the apparently misreported chromium results.

Regards,

Mark Detterman

Subject: Report for Western Forge and Flange

Hello Mark,

We are just putting the finishing touches on the Remedial Investigation Report for this site. It is due today, June 25, but will not be ready for uploading until tomorrow.

Could I request a one day extension?

I appreciate your understanding.

Lise
