

**Subject:** RO\_3014Crown Chevrolet  
**Entry Type:** Phone call  
**Company:** AMEC

**Start:** Wed 4/25/2012 5:00 PM  
**End:** Wed 4/25/2012 5:15 PM  
**Duration:** 15 minutes

Phone conversation with Avery Patton from AMEC to discuss status of my review of the case files and scheduling a meeting with Crown Chevrolet and the potential buyer. I told her that I was still prioritizing my caseload and that I expected I could give her a more realistic timeframe next week. I relayed to her that she could help expedite the process by (1) sending me full size drawings of the figures with the compiled soil, groundwater, and soil gas data that she uploaded to the ftp site, and (2) working with the client to upload the Ninyo and Moore Phase II reports and EDF data and any other pertinent data to Geotracker and Envision. Avery is also going to contact the client to try to get an update on the proposed redevelopment schedule.
