**Re: CLOSURE OF UNDERGROUND STORAGE TANK**

Dear Mr. Adams:

Thank you for the analytical reports concerning the removal of the two underground storage tanks at **1703 Grand Street, Alameda, CA**. The reports have been reviewed and it is our opinion that the tanks were closed in compliance with Title 23 of the California Code of Regulations.

No further investigations or cleanup actions are required. Please be aware that further work may be required if conditions change or a water quality threat is discovered at this specific site. Lastly, the onsite monitoring wells should be decommissioned if they will no longer be monitored. Well destruction permits may be obtained from Alameda County Public Works. They can be reached at (510) 670-5575.

If you have any further questions concerning this matter, please contact me at (510) 567-6762.

Sincerely,

eva chu  
Hazardous Materials Specialist
