Upon returning from vacation, there were voice mails (VMs) s from:

1. Matthew Naclerio, City of Alameda, Director of Public Works (510) 747-7930
2. Laura Zagaroli, Deputy City of Alameda Attorney (510) 747-4754
3. Lt. David Boersma, Alameda Police Department (510) 337-8315

They had called in my absence regarding the Directive Letter (DL) and Notice of Responsibility (NOR). I told each of them that the site was an active fuel leak case with EHS and to achieve the goal of case closure, EHS needed additional information about site work. I attempted to answer their questions regarding the DL and NOR, or if I couldn't, I'd get back to them.
