November 16, 1990

Mr. Paul Baca, Property Owner
Nickson Auto Repair
1111 San Pablo Ave.
Albany, CA 94706

Dear Mr. Baca:

On March 15, 1990, you informed me verbally that the soil samples taken below the underground tank that was removed at the above site on February 27, 1990, contained 300 ppm of oil and grease. I informed you at that time that a monitoring well needs to be installed, or you can re-sample.

Please send me a copy of all of your laboratory results, identify what investigation/remediation was done at the above site and the current status, within ten (10) days of the receipt of this letter.

If you have any questions, please contact me at 271-4320.

Sincerely,

Larry Seto, Senior,
Hazardous Materials Specialist
