Mark,

Just a quick note that ACEH has formally transferred oversight of the LOP case to the RWQCB and you in Geotracker as of this morning. Thanks for the background update back on June 8<sup>th</sup>.

Best,

Mark

I met with the Chiron/Novartis folks. They are going to move forward with removing Building M (1400-53rd) and putting up a new building. This will involve implementing their RMP for the Chiron Campus that we approved many years ago. It looks like there's some metals in the soil that need to be removed and then we need to address the TPH from the tank. They asked if we could handle it all together. To do so, it would require you to transfer lead for the UST portion over to us.

Please check with Donna to see if this is OK with her.

Thanks and have a good weekend.

Mark
