Jerry:

Just so you are aware, I did start all of the excavation of removing the contaminated dirt which is currently being stockpiled at the site until you and Engeo agree that it's okay to continue. Again, I am completely aware that I did this at my own risk and at my own expense and know that things may change that could affect additional scope and costs. But in the spirit of time, I needed to get a head start on this. Again, just wanted you to be aware.

Thanks again for your help and understanding through this process. I'll talk to you soon.

Thanks.....scott

Jerry:

Just curious, have you happened to have time to look at this yet? We have already commenced work on the property, but obviously, we are waiting for your review/comments/approval before we proceed any further. If you could let me know at your earliest convenience, I would appreciate it. Thanks and hope all is well!

Thanks.....scott
