Jeff,

The preferred time for me to visit the site is when confirmation sampling will be performed. However, it is not mandatory that I visit the site during each phase of work. Given that you will have the excavation completed on Tuesday, I will not be able to visit the site prior to completion. Therefore, you should continue without inspection by ACEH.

Jerry –

Thank you again for your prompt attention and turnaround on this work plan.

As an update, the excavation and backfill operations are under way. We anticipate that we will have it completed by Tuesday. We notice in your letter that you mention that an additional site visit by ACEH may be performed. Is there a specific stage of work at which you would prefer for the site visit to correspond? If not, we will continue “full speed ahead” with the excavation and backfill operations and look forward to seeing you or your staff at the site at a time convenient for you.

Thank you,
Jeff
