Subject: RE: Macedo Property (Livermore) - Review of the Additional Removal Action Report and the start of the 30 Day Public Comment period

Jerry:

This e-mail is to notify you that tonight (10/6), all of the Public Notifications were mailed out to everyone on the distribution lists as requested. I personally dropped them off at the US Post Office in Danville.

Thank you!scott

Attached is the public notification for distribution along with some standard bureaucratic language regarding a List of Landowners form. You are good to distribute the Notification of Potential Case Closure.

I can't remember our discussion regarding the monitoring wells at the site. If they are still there, we will need to get those destroyed before closure. In anticipation, you may want to have Engeo begin arrangements for well destruction (permitting with Zone 7 and scheduling driller).

Jerry:

Here is the list of "interested parties" involved with the review and approval process for this project. Is there any way I can get the Public Notification for Distribution and final mailing list by the end of today so I can get it out first thing in the morning? I'm planning to do this tonight (all night if I have to) as soon as I get it from you. Please let me know.

Thanks.....scott

Scott:

There is one thing that will speed things up. Please send me a list of interested persons for the public notification of potential case closure. This would include anyone you dealt with in getting the project approved such as city planners, etc. I will put together a list of nearby residents and occupants. Once I have compiled your list and my list, I will be sending you a copy of the public notification for distribution to the mailing list. When the public notification is distributed, it will start the public comment period.
