Eric,

Alameda County Environmental Health staff have reviewed the Work Plan Addenda to advance and sample borings beneath the building foundation. We have no objections to proceeding with the proposed scope of work in the Work Plan Addenda dated January 23, 2013.

Regards,

Subject: Workplan Addenda: Byron Power Company, 4901 Bruns Rd, Byron, CA  
Importance: High

Good Morning Jerry,  
Please find attached our proposed workscope addenda to the previously approve Site Investigation Workplan. As we discussed briefly on Tuesday, soil impacts appear to extend under the foundation of the building at the Site and we believe it prudent to assess if there are petroleum hydrocarbon impacts underneath the building. We would like to complete the work mid next week if possible.

I believe the naming format of the attached file is correct and will upload into the system. Please let me know if I am incorrect on the title.

Should you have any questions regarding the workplan addenda, please contact me directly at your earliest convenience. Thank you for your time and consideration.

Best Regards,

Eric W. Garcia, CEG, CHG
