Subject: Bell Cleaners, ACEH ID RO3080

Cindy,

I am currently reviewing the work plan submitted for Bell Cleaners, RO3080, located at 1534 Park St, Alameda, CA. As potential boring locations may be influenced by the presence of subsurface conduits, I'd like review the Preferential Pathway Study (PPS) for the site concurrent with my work plan review. Please upload it to our FTP website at your earliest convenience. If it is available in a draft form, please email it to me directly. If the PPS is incomplete, just forward the on-site map showing the through-floor fittings and associated piping.

Regards,
Keith
