Proposal # 7987

Ms. Karen Langmaid
San Lorenzo High School
50 E Lewelling Blvd.
San Lorenzo, California 94580

**RE: UNDERGROUND STORAGE TANK LOCATED AT
50 EAST LEWELLING BLVD, SAN LORENZO, CALIFORNIA**

Dear Ms. Langmaid:

Thank you for the opportunity to bid on the removal of one underground petroleum fuel tank located at 50 East Lewelling Blvd, San Lorenzo, California. I would like to submit this proposal for your consideration.

Golden Gate Tank Removal, Inc. is a Licensed "A" General Engineering Contractor, Licensed Concrete Contractor, Licensed Hazardous Substance Removal and Remedial Actions Contractor. Our California contractor's license number is 616521. Golden Gate Tank Removal, Inc. carries Worker's Compensation Insurance and \$2 million dollars of Liability and Pollution Insurance and Professional Errors and Omission Insurance. Insurance certificates can be provided upon request.

Here is our proposal for your review. Please sign and date one copy and return it to my attention.

If you have any questions please call me at (415) 512-1555

Sincerely,

A handwritten signature in black ink that reads "Tim Hallen". The signature is written in a cursive, flowing style.

Tim Hallen
Golden Gate Tank Removal, Inc.

50 East Lewelling Blvd, San Lorenzo California
Proposal & Contract # 7987
March 18, 2010

SCOPE OF WORK

Golden Gate Tank Removal, Inc. will perform the following tasks according to all applicable Federal, State and Local regulations.

1. We will notify Underground Services Alert (USA) that a tank removal is planned. USA will contact and instruct the utility companies to come out and mark the major utilities in the area of the tank.
2. Prepare and submit an Underground Storage Tank Modification Application to the Alameda County Department of Public Health and schedule for an on-site inspection of the tank removal and sampling procedures. Permit will be submitted by the school district.
3. Prepare a site specific Health and Safety Plan as required by OSHA 29 CFR 1910.120. A copy of this safety plan will be kept on-site and one copy will be submitted to the Alameda County Department of Public Health, Bureau of Toxic Health and Safety Services. HASP will be provided to school district for inclusion with permit submission.
4. Prepare and submit a letter to the State of California, Department of Industrial Relations, Division of Occupational Safety and Health (OSHA) for all excavations in excess of five feet in depth as required by Safety Order 3203. Golden Gate Tank Removal, Inc. maintains an annual permit for excavations.
5. Submit an application to the Bay Area Air Quality Management District, when required, with at least five days written notice before tank removal begins as per Regulation 8, Rule 40 of the BAAQMD.
6. Notify the San Lorenzo Fire Department Bureau of Fire Prevention for an on-site inspection to witness proper displacement of combustible and/or flammable vapors and/or the cutting of any tank. Golden Gate Tank Removal, Inc. maintains an annual permit for welding and cutting. The permit will be submitted directly by the San Lorenzo School District.
7. Our Registered Engineer will provide shoring calculations showing the location and depth of the excavation and a copy of the shoring calculations will be kept on site.
8. Provide safety equipment, traffic cones, high level flags and signs, "ROAD CONSTRUCTION AHEAD" as well as safety personnel to direct vehicle and pedestrian traffic, as needed.
9. San Lorenzo School district will provide for all permits listed in this proposal.
10. We will schedule all inspections listed in this proposal.
11. Provide a metal safety fence to protect pedestrians from the work area.
12. Break the asphalt over the tank area with a jackhammer and dispose of concrete debris off site at a concrete recycler.
13. Locate all underground utilities by hand before excavating.
14. Begin to excavate the soil on top of and around the underground tank.
15. If needed, install timber shoring to reduce caving during the tank excavation and soil extraction according to the direction of the Registered Engineer's shoring calculations, to a maximum depth of 10 feet.
16. The excavated soil will be stockpiled on-site for sampling and use as backfill material.

Golden Gate Tank Removal, Inc.
San Francisco, California

50 East Lewelling Blvd, San Lorenzo California
Proposal & Contract # 7987
March 18, 2010

SCOPE OF WORK

17. Empty and clean the underground tank using a steam cleaner and have a licensed hazardous waste hauler dispose of the fuel and the rinse water at a State Certified Treatment Facility for recycling. The cost of the disposal of the residual product and rinse will be billed directly to the San Lorenzo School District by the vacuum truck company.
18. To reduce the possibility of a fire, as needed, we will reduce the oxygen content of the tank by displacing the combustible vapors prior to removal of the tank. This will be completed by inserting a minimum of 3 pounds of solid carbon dioxide (dry ice) for every 100 gallons of tank volume as required by the San Lorenzo Fire Department.
19. We will remove exposed vent lines, fill pipes, and cut and plug product lines.
20. Remove one - ^{5,000}~~3,000~~ gallon or less underground fuel tank from the excavation and place on the street for inspection by the Alameda Department of Public Health.
21. Upon the approval of the Alameda County Department of Public Health, we will obtain a clean rinse sample from the tank and certify it as non-hazardous. The tank would then be transported to a metal recycler.
22. At the direction of the Alameda County Department of Public Health, we will take a total of three samples. Two sample extractions two feet below the bottom of the former tank and one sample from the stockpiles as required by The Alameda County Department of Public Health observing correct sampling protocol.
23. Provide for state certified laboratory analysis of required samples with a Chain of Custody record. The cost for lab analysis will be billed directly to the school district.
24. As required by the Alameda County Department of Public Health, the sample analysis will be for Total (Extractable) Petroleum Hydrocarbons (TPH), Benzene, Toluene, Xylene & Ethylbenzene (BTX&E).
25. Upon approval of the Alameda County Department of Public Health we will backfill the excavation with the stockpiled soil that was stored on-site and with imported fill sand and/or base rock and compact.
26. Prepare the area for resurfacing by saw cutting the edges of surrounding surface.
27. The area will be resurfaced to match surrounding with asphalt.
28. Provide a final report for the Alameda County Department of Public Health in written narrative form to establish that procedures and regulations for Alameda County have been observed during the tank removal process.
29. Provide a final report for the California Regional Water Quality Control Board, San Francisco Bay Region in written narrative form to establish that procedures and regulations for the State of California have been observed during the tank removal process.
30. Provide a final report for the owners of the property in written form that outlines the guidelines, procedures, results, and conclusions of the tank removal activities.
31. The excavation will be covered at night with 1-1/8 inch plywood and a 4-foot high metal fence will be placed around the work area.

50 East Lewelling Blvd, San Lorenzo California
Proposal & Contract # 7987
March 18, 2010

STATE LICENSE BOARD

Contractors are required by law to be licensed and regulated by the Contractors State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractors State License Board, 9835 Goethe Road Sacramento, California. The mailing address is: P.O. Box 26000, Sacramento, California 95826.

SPECIAL CONDITIONS

The owner is to furnish Golden Gate Tank Removal, Inc. with a one-time California EPA ID Waste Generator Number. This number can be obtained Free by calling (800) 618-6942.

The costs and schedules of this proposal are based on information provided by the owner and the assumption that soil and groundwater contamination has not occurred as a result of an unauthorized release of hydrocarbon products.

PRODUCT INSIDE TANK

Cost of the removal and disposal of the residual fuel and rinse water in the tank is not included in the price of the contract. The cost of the removal and disposal of these items will be billed directly to the San Lorenzo School District by the vacuum truck company.

ITEMS NOT INCLUDED IN CONTRACT PRICE

Additional charges may be billed in addition to the stated contract price. If any of the following need to be performed, a change order will be submitted for your approval. The price stated in this proposal does not include the following:

- A. Any remedial action, extra sampling, or tax assessment, which may be required by the Federal, State, or Local agencies.
- B. The relocation or repair of any utilities, sewer lines or cutting of tank, if it becomes necessary.
- C. The replacement of any trees or plants that may need to be removed during the tank removal process.
- D. The removal of residual product, rain, ground water, gasoline, solvent, oil, sludge or chemicals outside the tank or the disposal of any hazardous material.

GENERAL CONDITIONS

TERMINATION

This agreement may be terminated by either party upon five (5) days written notice. In the event of termination, Golden Gate Tank Removal, Inc. shall be paid for services performed prior to the termination notice date. This proposal may be withdrawn if not accepted within 30 days.

50 East Lewelling Blvd, San Lorenzo California
Proposal & Contract # 7987
March 18, 2010

DISPUTES & COLLECTIONS

If a dispute arises relating to the performance of the services or failure to remit any payment in the time otherwise agreed in this contract shall constitute default of contract. In the event of default, Golden Gate Tank Removal, Inc. shall be entitled to receive its costs in pursuing collections, including interest and reasonable attorneys' fees. Should it become necessary for either party to this contract to obtain its enforcement or interpretation in a court of law, then the prevailing party in court shall be entitled, in addition to any other relief it receives, to its costs and reasonable attorneys' fees.

COMPENSATION

The cost of the above-described work at 50 East Lewelling Blvd, San Lorenzo, shall be in the amount of:

| | |
|--|----------------------------------|
| Tank Removal | \$ 14,790.00 |
| Permits, Fuel Disposal, Lab Analysis | Billed to School District |
| Asphalt (disposal & replacement material) | Billed to School District |
| Transport & Disposal of Tank by ECI (if required) | Billed to School District |

\$ 1,479.0 is due upon start of project.

The balance is due upon completion of the work. A service charge of 1½% per month is charged on all delinquent accounts. The final report will be submitted to the owner and regulatory agencies upon receipt of final payment.

ACCEPTED

Storage Tank Closure Permit Application
 Alameda County Division of Hazardous Substances
 1131 Harbor Bay Parkway, Suite 250
 Alameda, CA 94502-6577

Removal plans have been received and found acceptable and essentially meet the requirements of State and Local Health Laws. Changes to your design plans must be submitted to this Department and to the Fire Department and local laws. The project proposed herein is not intended for issuance of any required building permits by the Department of Public Works.
 One copy of the accepted plans must be on the job and available to all contractors and craftsmen involved with the removal.

changes or alterations of these plans and specifications must be submitted to this Department and to the Fire Department and local laws. The project proposed herein is not intended for issuance of any required building permits by the Department of Public Works.
 This Department at least 72 hours prior to the following required inspections:

- Removal of Tanks and Piping
- Sampling
- Final Inspection

insurance of a) permit to operate, by permittee and surety, is dependent on compliance with accepted plans and all applicable laws and regulations.

THIS IS A FINANCIAL PROMISE FOR NOT OBTAINING THESE PERMITS

Special Operator

Name Accutest Laboratories

Address 3334 Victor court

city Santa Clara State CA zip 95054

State Certification No. 2346

13. Have tanks or pipes leaked in the past? Yes [] No [] Unknown [X]

If yes, describe. _____

14. Describe methods to be used for rendering tank(s) inert:

removal of product, purge, introduce dry ice to reduce vapors

flush lines and triple rinse with water, if necessary

pump to vacuum truck, steam clean tank

Before tanks are pumped out and inerted, all associated piping must be flushed back into the tank(s). All accessible piping must then be removed. Inaccessible piping must be permanently plugged using grout.

The Bay Area Air Quality Management District, 415/771-6000, along with local Fire and Building Departments, must also be contacted for tank removal permits. Fire departments typically require the use of a combustible gas indicator to verify tank inertness. It is the contractor's responsibility to have a functional combustible gas indicator on-site to verify that the tank(s) is inerted.

15. Tank History and Sampling Information *** (see instructions) ***

| Tank | | Material to be sampled (tank contents, soil, groundwater) | Location and Depth of Samples |
|------------|--|---|-------------------------------|
| Capacity | Use History include date last used (estimated) | | |
| 5K Gallons | unknown | soil samples & water if present | 1. stockpile 2. 3. on |

One soil sample must be collected for every 20 linear feet of piping that is removed. A ground water sample must be collected if any ground water is present in the excavation.

| Excavated/Stockpiled Soil | |
|---|--|
| Stockpiled Soil Volume (estimated) <h1>10-20 yards</h1> | Sampling Plan 4 point composite for every 50 cubic yards or 4 point composite for every 20 cubic yards |

Stockpiled soil must be placed on bermed plastic and must be completely covered by plastic sheeting.

Will the excavated soil be returned to the excavation immediately after tank removal? yes no unknown

If yes, explain reasoning _____

If unknown at this point in time, please be aware that excavated soil may not be returned to the excavation without prior approval from this office. This means that the contractor, consultant, or responsible party must communicate with the Specialist IN ADVANCE of backfilling activities.
