Paul,  
I'm in the process of getting the public notification out and verifying that the state's database (Geotracker) is up to date and ready for closure once the notification goes through the 60 day comment period. I noticed that while the more recent report was uploaded, support documentation (bore logs B-5 to B-9, laboratory EDFs, an updated GEO\_MAP) have not been provided. Please have the information uploaded within 30 days so that this does not become a problem at the end. Let me know when it's been uploaded so I can approve it quickly.  
Thanks,

*Mark Detterman
