**Subject:** RO# for LUST site, The Salvation Army 601 Wester Oakland

Hi Donna,

I had given the task of uploading the Excavation Report, URF, and Investigation Workplan to Jim Kundert, a geologist in our office. Jim normally does our Geotracker uploading and does a good job.

Fortunate for him, but unfortunate for this site, he has been busy with field work, so he has been unable to upload the documents as I had asked, so I want to attempt the uploading myself so as not delay progress on this site anymore.

I have requested and received an Alameda County password and want to upload these documents but I don't have an RO# for the site. If this isn't important, let me know, because I know how exacting electronic filing systems can be.

My concern that without an RO# that I can upload the documents, have a receipt for uploading the documents but still, you potentially not even be aware of their existence in your system.

Please let me know how to proceed.

Thanks!
