No permit is required for any sub-slab soil gas wells or “vapor pin wells”. Only vapor monitoring wells outside of the foundation slab area require a permit only.

Hi Keith:

Is a permit required for subslab vapor well installation – if not can you please confirm that with Mike.

thanks

Mike,

At this time, Alameda County Environmental Health (ACEH) does not permit well installation or destruction. Please contact Alameda County Public Works for an answer to your question.

Regards,
Keith Nowell

Excellent.

Thanks Keith!

Can you tell me if a ACEHD permit is required for the installation of the subslab vapor points?

Subject: LTCP Technical Justification Groundwater Paper

Hi Keith,

In regards to the Low Threat Underground Storage Tank Case Closure Policy (LTCP) Technical Justification Groundwater Paper, highlighted on page two of the attached email... I went to the State Water Resources Control Board website and downloaded what I think is the correct paper. I have attached what I downloaded.

Could you please?

1. Confirm that the attached is the correct document referred to in the email, or
2. Send me a copy of the actual document, or
3. Send me a link to download the actual document.

I want to ensure that we are all working off the same page.

Thanks!

Michael D. Sonke
