**December 23, 2016**

The above referenced site is a Site Cleanup Program (SCP) case that is under the regulatory oversight of the Alameda County Department of Environmental Health (ACDEH) for the investigation and cleanup of petroleum hydrocarbons associated with hydraulic lifts and an oil/water separator used at the site as an automobile repair facility. Site investigation and cleanup activities have been completed and it does not appear that residual contamination presents a risk to human health and the environment. Therefore, ACDEH is considering closure of the case.

This notice is being sent to the current occupants and landowners of adjacent properties and known interested parties for this site. The public is invited to review and comment on the potential closure of the case. The entire case file can be viewed over the Internet on the ACDEH website (<http://www.acgov.org/aceh/lop/ust.htm>) or the State of California Water Resources Control Board GeoTracker website (<http://geotracker.waterboards.ca.gov>).
