Hi Karel,

GHD on behalf of Chevron Environmental Management Company (Chevron) would like to request an extension for the *Data Gap Investigation Work Plan and Updated Site Conceptual Model* requested by Alameda County Environmental Health (ACEH) letter dated February 10, 2017. The reason for the extension request is for the onsite monitoring wells MW-1 through MW-4 to be sampled and the data included in the report. Chevron is currently working with the property/monitoring well owner to secure

access to sample the wells. Additionally, Chevron's project management recently changed to Carryl MacLeod (cc'ed on this email). Therefore, we respectfully request a due date of **May 15, 2017** for the *Data Gap Investigation Work Plan and Updated Site Conceptual Model*.

Thank you,
Kiersten

Hello Kiersten:

Alameda County Department of Environmental Health's (ACDEH's) does not concur with the request to reduce site groundwater monitoring and sampling from quarterly to semi-annual because of the reasons described in Technical Comment 1 in the attached Directive Letter dated February 10, 2017.
