Received a forwarded voicemail from Mr. Don Greenstock, a representative of Foxwater Group. The call came in yesterday evening. It was an inquiry regarding a NOR identifying the Foxwater Group as one of the RPs for the UST on Peralta St- RO3111. I returned Mr. Greenstock's call and discussed the NOR listing. I said the tank case was being closed and we are following the procedures for UST closure. I informed him that there was essentially no contamination as a result of the tank presence. The site is currently in public notification and will be closed. Mr. Greenstock asked if he would receive a copy of the closure. I said I would get back to him with an answer, but it would be available on the County website and that he could get a copy from there. I gave him my contact information.
