**Categories:** Mail\_Cases

Hi Donna-

I work for Jeff Jung who owns the 18-unit apartment building at 640 Brooklyn Ave. in Oakland (Contaminated Site Case from OFD). The property is being sold and was supposed to close escrow tomorrow. Golden Gate Tank Removal Co. says that they are waiting to get instructions from you on how to proceed. The seller, Jeffrey Jung, would like to comply with your requests.

I know you are probably swamped and behind but if there is any way to get this process moving we would all be very appreciative.

By the way, this property sits atop Haddon Hill overlooking Lake Merritt and is probably 100 feet above lake level so I am very curious as to how far down the water table is.

If there is anything I can do to help in this please let me know.

Sincerely,

Link Corkery
