Date: Tuesday, March 10, 2015 4:05:35 PM

Hello Jeff, Vicki, and Peter:

ACEH has evaluated the January 28, 2015 Draft *Well Study and Sensitive Receptor Study Report* prepared on your behalf by Stratus Environmental, Inc. (Stratus) in conjunction with the case file, the March 14, 2014 *Soil and Groundwater Investigation Report*, and the State Water Resources Control Board's (SWRCBs) Low Threat Underground Storage Tank Case Closure Policy (LTCP) adopted in 2012. ACEH has determined that sufficient site data is now presented to eliminate the remaining data gaps concerning the LTCP Media Specific Criteria for Groundwater. Consequently, ACEH will consider case closure for this site.

Please finalize the Draft *Well Study and Sensitive Receptor Study Report* and upload it to ACEH's ftp site and Geotracker. Upon review of the finalized document, ACEH will start the 60 day Public Notification period.

Thank you,

Karel Detterman, PG

Hello Peter:

I received your voice message and I am still attempting to meet with my supervisor about this case; I will e-mail you as soon as this happens.

Thank you,
