Subject: R03114 640 Brooklyn Avenue, Oakland, CA - August 13, 2013 Directive Letter Amendment
Date: Monday, August 19, 2013 3:34:37 PM

Hi Jeff and Vicki: Please use the following paragraph instead of the existing paragraph in the second paragraph of my August 13, 2013 Directive Letter:

“Please investigate the horizontal and vertical extent of soil and groundwater contamination and determine if contamination is present beneath your site. This type of investigation usually involves drilling several soil borings and collecting soil and grab groundwater samples for chemical analyses. The work plan should be prepared by an environmental consultant qualified to undertake the work. Please submit a work plan by the date specified below.”

My apologies for any confusion this may have caused.

Thank,

Karel Detterman, PG
